Soldiers for Crested Butte  
In reply to Governor Ammons' request to the war made to the war department that federal troops be sent to the Oak Creek and Crested Butte districts in Colorado, the following telegram was received today from Secretary Garrison:  
"Your telegram of May 8 received. I have ordered a report made to me on conditions at Crested Butte and Oak Creek. Will act when I get the facts."  
Last week upon request of federal authorities that a militia detachment be sent to the Oak Creek district in Routt county, 20 men were sent.

Holding Back Arms?  
Trinidad, May 9.—One hundred and seventy-eight arms of all classes had been surrendered to the United States army officers here today after three hours of work as the direct result of the proclamation issued yesterday by Colonel James Lockett, commanding the proclamation called upon all persons without reservation, to surrender all firearms. Of the total number strikers had turned in 37 guns of various varieties ranging from .22 caliber rifles and pistols to Winchester of the 1894 model. The remainder are weapons belonging to citizens.  
Disappointment at the small number and almost worthless character of the weapons received was expressed by army officers. Particularly were they chagrined by the showing made by strikers after the depository had been open for three hours.

The supreme court of the United States recently upheld the decision of a lower court, assessing damages to the amount of \$45,000 against a California construction company for violating the alien contract labor law in importing Mexicans to work on railroad construction in Arizona.

CHICAGO BOARD OF TRADE  
Chicago, May 9.—Bullish European advices today put renewed strength into wheat. In particular, an advance at Paris due to the unfavorable outlook for crops in France was influential on the buying side. Continued serious damage from heavy rains in Argentina gave the corn market a slight lift. Opening prices were unchanged to 1/4 cent higher. The close was steady at 1/4 cent off to 1/4 up compared with last night.

Oats developed firmness with other grain. Trade was only moderate. In provisions, the tendency was downward. Hog prices were weak and stocks in store here liberal. The closing quotations were as follows:

New York, May 9.—The market closed strong. After a brief period of heaviness in the early dealings the movement was steadily upward, and at the end of the half-day session prices were fractionally above yesterday's close.

Support extended to Missouri Pacific, Chesapeake and Ohio, and other issues which have been weak of late, steadied the whole list. Bonds were irregular. Rock Island bonds were active and gained half to 1 1/2 points.

## There It Is!

Chemical analysis of an ordinary cup of coffee shows that it contains about 2 1/2 grains of the drug caffeine.

By actual test the U. S. Government demonstrated that 5 grains of caffeine (the amount in 2 cups of coffee) were sufficient to kill a rabbit.

Of course, human beings are stronger than rabbits, but there are few people who can drink coffee regularly without sooner or later feeling the effects of caffeine poisoning, commonly shown in headache, indigestion, bluishness, sleeplessness, heart agitation and other ills.

Thousands of people, tired of coffee troubles, have found relief by changing to
